

Re: Ever Earned A \$12,039.50 Checks Working From Home In Your Underwear?

Hello there, my name is Sherman Choo. I have been working full time from home since 2007. I earn my living from checks mailed directly to my home. And wire transfers, which you will see more later.

Here's an example of a type of internet check that's mailed to me worth USD12,039.50.

It reads:

PAY TO THE ORDER OF Sherman Choo \$12,039.50, Twelve Thousand Thirty Nine Dollars and 50 Cents DOLLARS

Quick Background

I graduated from Nanyang Technological University in 2002. Like everyone who graduated at that time, job experience was what I was looking for. Average salary was anywhere from \$2000, to \$3500.

\$3500 was the salary for a graduate who had a good 1st class honors degree.

Between 2002 and 2007, I was a relief teacher, and later worked to broker deals. Long story short, the hours were long, as im sure most teachers know, and trying to broker deals was very difficult as the constant travel was not my cup of tea.

So began my search for an alternative source of income that would be stable and passive.

On the internet, sales is a direct selling model where you skip a retail store front and have products shipped direct to a customer from the warehouse.

A typical sale goes like this. If you have ever bought anything online such as from AMAZON.com, you would have experienced the process.

Visit Amazon.com =====>> Pay for a book with your credit card =====> Book is shipped to you.

In order to earn an income online, you need to plug yourself into this business model and team up with a company that pays people for bringing in sales to the website.

You become their affiliate or an independent sales person.

There are many such companies like this, where you can work as an affiliate with.

- Property estate agencies
- Online cosmetic companies
- Web hosting companies
- Paid forums

The companies that I work with are mostly from the USA. Every month, the accounts department will mail a check, or wire transfer my earnings to me.

Then I get a bank statement from DBS LTD informing that money has been received.

See next page for a DBS Ltd bank statement worth USD 15,906.

How Do I Get Customers, Process, Orders, Get Paid?

I just use 3 things.

- A Website
- Contact Form
- Cash on Delivery

That's it? Yes.

The website is the 1st point of contact with an audience. I share what I have to offer on the website, my audience decides if its good for them.

If it is, they sign up on the contact form.

I get in touch with them. Send the products over, and they pay cash on delivery.

How about International Orders?

For international orders, I use a dropshipping company that is in the ANTI AGING industry.

They have a valid online payment processor. This works best for international orders where I am unable to collect the money face to face.

In this case, I work with a company that manufactures the products for me, dropships the products for me, handles the payment solution for me.

My only part, is to handle the marketing of their products, which I have tried and is very good.

After I've made my sales, the company wires the money to my account on the 20th of every month.

Lets have a look at what sells well in the Anti Aging Industry.

What Sells Well In Anti Aging?

They fall under these 3 categories:

Increase Energy and Sexual Health
Weight Loss
Fairer and Less Wrinkled Skin

1. Anti Aging Niche #1 - Weight Loss Niche

For Weight Loss, I promote a 3 month Fat Loss formula. Follow their program for 3 months. No starvation is required. Use their supplements to burn fat and feed the muscle. Its a top seller. Sell 3 of these a day and your BMW Z4 is around the corner.

2. Anti Aging Niche #2 - The Anti Wrinkle And Fairer Skin Category

This product serves to reduce neck wrinkles and fine lines around the eyes, neck, behind the hands. It serves to keep your skin fair and white. In asia, for example in the philippines, being dark skinned is not a sign of prosperity. \$1000s of dollars are spent to keep the facial skin, arms fair.

Here are users I use in my promotion... Which is the mum?

The one on the left is the mum. She is 52 years old, the daughter on the right is 26

Again, mum on the left is 54, son on the right is 25.
